

Shrink Wrap Cover Rates

Date:

Boat Information

Powerboat Or Sailboat Year: _____ Make: _____ Model: _____
 Length: _____ Beam: _____ Draft: _____ Weight: _____ Boat Name: _____

Please select the appropriate boxes below for all services you would like us to perform, then sign and date the form and return this page to customer service by fax, email or postal delivery. Note: unless otherwise stated, all rates are based on "the boats shrink wrap length as indicated by the dotted line" and do not include fees for Shop Materials, Environmental Disposal or applicable Taxes.

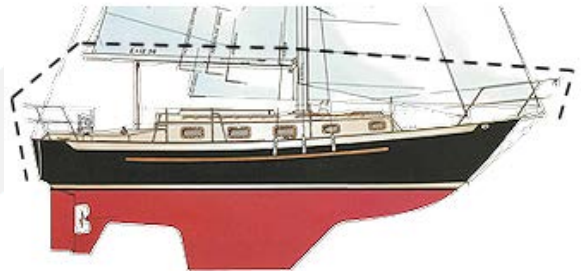

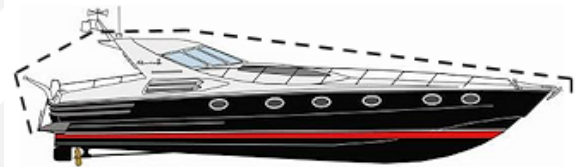

Coverage: Shrink wrap cover rates are calculated per foot based by overall shrink wrap lengths as actually measured on your boat. That length is measured differently depending upon your type of boat and is represented in the examples showing how those general measurements are made.

Power Boats: Measured from the bow stem or bow pulpit; then over the bow rail up to the cabin superstructure or flying bridge, then over any arch that may exist, and continuing on over the stern rail, and then down to the stern swim platform. Coverage includes navigation lights, electronics, and antennas.

Sailboats: Measured from the bow stem, bow pulpit, or bow sprit; then over the bow rail to the boom gooseneck, then along the boom going aft to the stern end of the boom, continuing on down over the stern rail, and then down to the stern swim platform or transom bottom. Coverage includes navigation lights, electronics, and antennas that are not mounted above the boom or on the mast.

At No Charge: Included with your shrink wrap cover when applied by us; are structure to support wrap, cover vents, and 1 door; as well as monitoring during the winter storage season in which it is wrapped, and if necessary, repaired at no charge if a problem occurs which may compromises the effectiveness of the shrink wrap cover. Recycling is included at removal time.

Please Note: We consider shrink wrap to be suitable for one season winter storage only, and do not recommend leaving it on through the summer, or through multiple seasons, this due to the potential of trapping heat and moisture and causing damage to your boats interior and/or exterior finishes.

<input type="checkbox"/> 0 – 25' : \$15.00	<input type="checkbox"/> 26' – 30' : \$16.50	<input type="checkbox"/> 31' – 35' : \$17.25
<input type="checkbox"/> 36' – 40' : \$18.00	<input type="checkbox"/> 41' – 45' : \$18.75	<input type="checkbox"/> 46' - 50' : \$20.25
<input type="checkbox"/> Boats over 50' : Quoted		

Note: Measurements are for shrink wrap lengths shown by the dotted lines and not boat lengths.

Shrink Wrap Removal Charge: Removal of your shrink wrap cover IS NOT included in the cost of your shrink wrap cover when purchased and installed. If you request us to remove your shrink wrap cover, the cost to dispose of the used shrink wrap and associated materials is included with the removal charge. Shrink Wrap Removal Charge: \$5.00 per foot.

I have read, understand, and authorize the above services to be completed by the Barker's Island Marina.
